

```
#include<stdio.h>
const int* folks(int* money){
    *money=100;
    return money;

}
int main(){
    int my_money=200;
    int *my_money_ptr;
    my_money_ptr=folks(&my_money);
    printf("i still need %d \n", *my_money_ptr);
    return 0;

}
```
